Letter no A S C 222/41 42 dated 18-12-41 from the Dy Commissioner Mandya District forwarding a copy of the resolution of the Mandya Town Municipal Council in the matter of reducing the rate of octroi duty on tobacco at the place and recommending that existing rate may be allowed to continue

1 The existing rate of octroi duty on tobacco in Mandya Town Municipality is Re 1/- per maund

2 The Municipal Council have proposed to reduce it to Rs 0-4-0, on the ground that it would check the smuggling of this Commodity and they hope, that there will be an increase in the total revenue under this head The President of the Municipal Council has, however, recommended that it may be reduced to 8 annas only The D C thinks that the existing rate of Re 1/- per md may be continued

precaution to forewarn. The Mal CL proposes four annas. The Rep of the CL puts it at 0 8-0 & the DC would Continue the existing rate of Re 1/ It shows that the recommending agencies are hesitant.

5 If the rate of Re 1/ had been thought high, probably, the Mal CC would have moved in the matter long back. The rate has been obtaining for a fairly long time. The DCs views may be accepted.

8/1/42 6 The resolution of the Mandya Town Mal CC to reduce the rate of levy of octroi on Tobacco from the present rate of rupee one to four annas per maund may not be accepted, as it would be detrimental to the financial interests of an expanding District Headquarter Town like Mandya.

Law Secy 23/1/42

7 The DC is against the proposal there is no reason to reduce the octroi duty.

8 The resolution may not be approved.

Sir,

Rev 112-41-19

Subject Re the reduction of octroi duty on tobacco in Mandya Town Municipality

--

In forwarding herewith a copy of report No C 130/40-41 dated 13th January 1941 from the President, Municipal Council, Mandya, in the matter of reducing the rate of octroi duty on tobacco, I have the honour to state as follows

The rate of octroi duty on tobacco now in force in the Municipality is Re 1/- per maund The Municipal Council, Mandya, have at their meeting held on 23th September 1941 resolved that the present rate be reduced to four annas per maund as it would ensure a better income

From the report of the President, Municipal Council, Mandya, it will be seen that the one consideration which appears to have outweighed the rest in recommending reduction of rates seems to be that this would check the smuggling of this commodity into the municipal limits and that this would also tend to induce the importers to readily pay octroi on the consignments in view of the low rates The Municipal Council expect an increase in the Revenue under this head by the proposed reduction The income realised under this head as reported by the President during the last five years is noted in the margin It would be seen therefrom that the income has risen from Rs 115-6-9 during 36-37 to 320-8-10 in 39-40 although there is a slight fall during 40-41 The present rate appears to be reasonable as is evidenced by the steady increase in the revenue It is no argument that the present rate favours smuggling If this is really so, necessary arrangements should be made to detect smuggling and to take action to prevent it The present circumstances do not appear to warrant the drastic reduction in the rate

Report on R C 130/40-41 dated 13th January 1941 from the President, Town Municipal Council, Bandya, to the Deputy Commissioner, Bandya District

---

I have the honour to submit herewith the petition from Mohammadullakhan and others of Bandya Town praying for reduction of octroi duty on imported tobacco from rupee one per maund to annas four per maund together with an extract from the Council's resolution thereon, for favour of kind perusal

In this connection I wish to state that the levy of octroi duty at Re 1/- per maund worth 4 or 5/- of tobacco is very heavy and the merchants dealing in this article are experiencing much hardship The average annual income at present on this article amounts to Rs 300/-

Now a large quantity of tobacco imported by rail is being taken away on Baramarga receipt to neighbouring villages and thence there is a chance of smuggling of this article into the Town during night undetected, as there are several out of the way entrances to the town If the octroi rate of one rupee is reduced to 0-8-0 per maund, there is every likelihood of increase in Revenue under this head I therefore request you to kindly recommend to Government for the reduction of octroi rate by Rs 0-8-0 as a temporary measure for one year, so that the fluctuation in the income may be watched before making it a permanent reduction The rate of octroi in other sister town municipalities is said to be Rs 0-8-0 per maund of tobacco

---
